

41. Instructions for Reflection Paper #2: “Placement Free Write”

Length: 500 Words maximum

Due Friday October 22, 5:00 pm

This reflection paper is an opportunity for you to write about the experiences you’ve had in your placement. You may choose to write about anything in your placement, as long as you do so with the hands, head, and heart. That is, don’t *only* describe the physical layout of the place, or account events that have happened, and don’t *only* write about what the placement has made you think or feel. Some questions that you might want to (but don’t have to) consider are:

- What is your role within the organization with which you’re working?
- What are some specific interactions/events that you’ve experienced that bring out the essence of your placement?
- What has been the most surprising or interesting thing you’ve experienced or thought about as a result of your placement?
